## TRIBLEND

At **BELLA+CANVAS**, we like to think of ourselves as experts in the world of triblends. This fabric entered the wholesale market nearly a decade ago, and just about everyone took note – especially fashion savvy customers. Since then, we've continued to expand this offering into one of the most extensive triblend collections in the game.

Grey Triblend

- So what makes our triblends so spectacular? It's a blend of three types of yarn—50% polyester, 25% Airlume combed and ring-spun cotton and 25% rayon. You get the comfort from the cotton, durability from the polyester, and the luxurious drape from the rayon.
- But what really sets ours apart is that we are the only manufacturer to use a 40 single knit structure. The higher the single count, the softer and smoother the fabric.
- We are also the only brand to offer the only solid triblend colors. With the solid colors you get the soft hand customers love without the heathered look typical of triblends.

## TRIBLEND

So, why should you care about triblend? Adding triblend to your offering gives your clients the chance to purchase truly impressive product, with a very high perceived value, and something similar to what they would find in a retail store. Now, more than ever, customers are searching for ways to stand out and be different, and in this industry retail inspired fabrics can be a great way to do just that.
