BE DIFFERENT

## ONE FIT. FOUR STYLES.

We found huge success when we split our top-selling 3001 into two styles, 3001 for solids and 3001CVC for heathers, now it's time for the women's companion to follow suit.

## THE RELAXED TREND:

Relaxed is all the rage. This fit is flattering with a boyfriend style fit. We decided to introduce the 6400 as a more true-to-size, relaxed fitting tee, which not only follows fashion and retail trends, but also covers a broader demographic of women.
